APPLICANT : DAINIPPON PRINTING CO LTD;

INVENTOR : MATSUKURA TETSUO;

INT.CL. : B41N 1/24

TITLE : TRANSLUCENT DECORATIVE SCREEN AND PRODUCTION THEREOF

ABSTRACT : PURPOSE: To widen the range of choice of base film materials and prevent translucency from being lowered, by providing a print layer which comprises a front pattern layer and a back pattern layer with a hiding ink layer sandwiched therebetween and is provided with a multiplicity of through-holes, on a transparent plastic or glass base.

CONSTITUTION: A translucent decorative screen comprises a print layer 2, which is provided with a multiplicity of through-holes 3, on a transparent plastic or glass base 1, wherein the print layer 2 comprises a front pattern layer 21 and a back pattern layer 23 on opposite sides of a hiding ink layer 22. The decorative screen is produced by a method wherein the back pattern layer 23, the hiding ink layer 22 and the face pattern layer 21 are printed in that order on a base paper 4 for transfer, followed by providing a multiplicity of the through-holes 3 to produce a transfer sheet, and the print layer 2 of the transfer sheet is transferred onto the transparent plastic or glass base 1.
